Kelly Yu, April Ye, Kenny Zhou

Project 1

Milestone 1

- Ideas
  - Percent of adults who binge drink
    - Dataset: https://bchi.bigcitieshealth.org/indicators/1827/searches/22971
    - Data Visualization Ideas:
      - Put the cities on a map of the US using X and Y coordinates.
      - Use varying radii on the circles of each city to show the percentage of adults who binge drank.
  - Movies data visualization by year/genre/actor/actress
    - Dataset: https://www.kaggle.com/rounakbanik/the-movies-dataset
    - Data Visualization Ideas:
      - Use budget/ratings/genre to display how different movies performed
  - Drinks sorting by country/drink
    - https://www.kaggle.com/navneethc/drinks
    - Data Visualization Ideas: map of the world with density dots/different colors for different drinks
  - Top Spotify Songs
    - https://www.kaggle.com/nadintamer/top-spotify-tracks-of-2018
    - Data Visualization
      - Quadrant measuring correlation between energy and danceability
  - Black Friday gender/age visualization
    - https://www.kaggle.com/mehdidag/black-friday
    - Data Visualization Ideas: little guy/girl figures that get bigger for each age bracket; opaqueness increases with amount of people per group
- Tasks
  - Kelly: Draw one visualization for Black Friday dataset
  - April: Draw one visualization for Black Friday dataset
  - Kenny: Draw one visualization for Black Friday dataset
  - All: Compare and compile highlights of each others' visualization into a final sketch
